

Exhibits

100000 ENERGY PRODUCTION FROM RENEWABLE SOURCES	120535 Covering/glazing for solar thermal collectors
110000 EARTH	120540 Accumulation tanks
110100 Biomass	120545 Control panel
110500 Suppliance of biomass	120555 Solar thermal heating systems
110505 Production and sales of firewood	120560 Solar thermal sanitary water production
110510 Production and sales of wood shavings	120565 Combined solar thermal heating & sanitary water production
110515 Production and sales of pellets	120570 Solar air-conditioning and de-humidification
110520 Production and sales of briquettes	120571 Films for passive use of solar thermal
110525 Production and sales of charcoal	120585 Integrated /hybrid solar systems
111000 Biomass collecting systems	120590 Solar thermal control and management software
111500 Biomass transportation, handling and storage	120595 Parts and elements for solar thermal systems
112000 Biomass elaboration	121000 Fotovoltaic systems
112500 Biomass conversion into energy	121005 Fotovoltaic cells
112505 Biomass -powered electricity generation systems	121010 Mono or polycrystallic silicon laminates/modules
112510 Biomass-powered gasification systems	121015 Amorphous silicon laminates/modules
112515 Direct combustion systems	121020 Thin-sheeted fotovoltaic modules
112520 Air conditioning- cold production	121035 Regulation and control units
112525 Steam production from biomass	121045 Combined systems
113000 Heat generator systems for low power	121050 Residential users
113005 Pellet burners	121051 Fotovoltaic panels for façades
113010 Wood-burning stoves	121052 Fotovoltaic panels for roofs
113015 Wood-burning fireplaces	121055 Street lights and other applications
113020 Wood stoves as radiators source	121060 Rural electrification
113025 Wood boiler	121065 Telecommunications
113500 Heat generator systems for high power	121070 Pumping/watering applications
113900 Parts and equipment for biomass systems	121075 net interface
114000 Biogas	121090 Software for fotovoltaic control and management
114005 Systems of biogas production from vegetables	121095 Parts and equipment for fotovoltaic solar
114010 Systems of biogas production from liquid and solid manure	130000 WIND
114015 Systems of biogas production from industrial waste	131000 Single wind -generators
114020 Systems of biogas production from waste dumping sites	131005 Small turbines
114060 Biogas burners	131010 Big turbines
114070 Biogas turbines	131015 Pumping systems
114075 Biogas engines	131020 Wind-powered heat-pumps
114080 Microgeneration	131090 Wind-powered control and management software
114085 Containers for fermentation	131500 Eolic Farms
114089 Safety tubing	139500 Parts and components for wind systems
114095 Biogas parts and equipment	140000 WATER
115000 LIQUID BIOFUELS	140500 Small hydroelectric systems
115005 Production and distribution of biodiesel	141000 Hydroelectric turbines and systems
115010 Production and distribution of ethanol	141500 Parts and technology
115015 Production and distribution of other liquid biofuels	142000 Equipment
115060 Biodiesel burners	149000 Hydroelectric systems control and management software
115065 Transformation kit for diesel burners	149500 Hydroelectric systems parts and equipment
115070 Distillation processes	200000 GENERATION TECHNOLOGY AND PROCESSES
115075 Ethanol burners	210000 GENERATION STATIONS
115095 Biofuel parts and equipment	210500 Co-generation systems
117000 GEOTHERMAL SYSTEMS	211000 Tri-generation stations
117005 Geothermal energy generation	211500 Continual generation systems
117010 Geothermal electricity generation	212000 Emergency generation systems
117015 Geothermal production of air conditioning	212500 Power stations
117020 Control panels for geothermal systems	213000 Thermal generation stations
117030 Probes	213500 District heating systems
117035 Ground surveys	220000 MICROGENERATION
117090 Management and control software for geothermal systems	230000 PRODUCTION AND USE OF STEAM
117095 Parts and equipment for geothermal systems	230500 Steam generation
120000 SUN	231000 Steam turbines
120500 Solar thermal	231500 Steam engines
120505 Flat Solar thermal collectors	237000 Electric energy production from steam
120510 Vaccum tube solar thermal collectors	239500 Parts for steam-powered energy generation systems
120515 Air -powered solar collectors	240000 HYDROGEN
120520 Stiff insulated tubing	240500 Fuel cells for automobiles
120525 Flexible pre-insulated tubing	241000 Fuel cells for residential use
120530 Solar water boilers	241500 Parts

Exhibits

242000	System infrastructure	430000	ENERGY SAVING SOLUTIONS
242500	Production and distribution	430500	District heating
243000	Electrolysis and reforming systems	430505	Insulated tubing for district heating systems
249500	Hydrogene systems parts and equipment	430510	Parts and equipment for district heating systems
250000	GASIFICATION	430515	Heat exchangers for district heating systems
250500	Complete gasification systems	431000	Energy saving by cogeneration
251000	Gas pipe-line	440000	ENERGY GENERATION EFFICIENCY
251500	Gas treatment	500000	ENVIRONMENT CARE
258000	Heat generation from gasification	510000	SUSTAINABLE ENERGY GENERATION
258100	Electricity generation from gasification	520000	Control of ENVIRONMENTAL HAZARDS
260000	RENEWABLE SOURCES INTEGRATED SYSTEMS	530000	EXHAUST control
270000	COMBINED CYCLES	540000	POLLUTION control
280000	HYBRID SYSTEMS	550000	Awareness and information
280500	Co-production by traditional and renewable sources	600000	PRODUCERS OF ENERGY FROM RENEWABLE SOURCES
281000	Non connected hybrid systems	610000	Biomass energy
281500	Optimisation of hybrid systems	620000	Solar energy
290000	PARTS FOR GENERATOR SYSTEMS	630000	Eolic energy
290500	Inverters	640000	Hydroelectric energy
291000	Accumulators	650000	Hydrogene energy
291500	Heat pumps	700000	INNOVATIVE SOLUTIONS
300000	WASTE AS SOURCE OF ENERGY	800000	RESEARCH AND DEVELOPMENT
310000	Equipment and systems for urban waste transformation	810000	UNIVERSITY
320000	Parts and equipment for industrial waste transformation	820000	RESEARCH INSTITUTES
330000	Equipment and systems for special waste transformation	830000	PRIVATE RESEARCH CENTRES
330500	Transformation of manure	840000	PROFESSIONAL CAPACITATION
331000	Transformation of agricultural waste	840500	Updating courses
331500	Transformation of waste paper and carton	841000	Seminars
332000	Depuration processes for mud transformation	841500	Master
400000	ENERGY EFFICIENCY AND SAVING	850000	ENVIRONMENT EDUCATION
410000	INNOVATIVE SOLUTIONS FOR TRANSPORTATION	900000	ASSOCIATIONS, PUBLIC AGENCIES AND SERVICES
411000	Sustainable transportation structures	910000	INDUSTRIAL ASSOCIATIONS
411005	Alternative transportation infrastructure	910500	Associations of producers of technology from renewable sources
411010	Environment-friendly transportation measures	911000	Associations of producers of energy from renewable sources
411015	Energy-saving solutions applied to urban transportation	911500	Scientific associations
412000	Sustainable transportation services	912000	Environmental associations
412005	Traffic management software	920000	PUBLISHERS
412010	Solutions for goods transportation	930000	Engineering centers
412015	Passangers coordination centrals	931000	Engineering
412020	Public and Private services	931500	Optimisation calculus
412025	Train services	932000	Feasibility studies
413000	Environment-friendly vehicles	932500	Residential users
413005	Low environmental impact traditional vehicles	933000	Industrial usage (medium-high consumption)
413010	Electric vehicles	940000	Special installers
413015	Fuel cell electric vehicles	940500	Solar thermal panels
413020	Hydrogen vehicles	941000	Fotovoltaic panels
413025	Solar vehicles	941500	Geothermal
413090	Hybrid vehicles	942000	Wind systems
414000	Alternative fuels	942500	Biogas systems
414005	Sulphur free gasoline and diesel	943000	Biomass systems
414010	Liquid biofuels	948000	Hybrid systems
414015	Methane and propane	950000	TECHNICAL HELP
420000	GREEN BUILDING	950500	Licensing of the systems
420500	Heat production through alternative systems	951000	Specific tests
421000	Green building	951500	Renewable energy local government programmes
421500	Passive solar building	952000	Solar urban usage
422000	Low energy consumption buildings	952500	Customers help desk
422500	Floor radiating systems	953000	Regulations and subsidies
423000	Insulation	960000	FINANCIAL SYSTEMS
423500	Insulating tubing	960500	Ethical credit institutions
424000	Solar screens	961000	Leasing and credit
424500	Water saving and recycling systems	961500	Co-investors
425000	Green roofing		
426000	Wooden homes		
429900	Parts and equipment for green building
